Modular-File-System

June 4, 2007

DOUBLE YOUR STORAGE CAPACITY USING LESS SPACE!
Ancom Announces Today's Most Advanced Filing and Storage Solution.

(Ancom Corporate Headquarters, Brunswick, OH) – For anyone wanting to save time, space and money while increasing file and storage capacity by 50 to 71% - here is the solution. Now available from Ancom are Access™ Modular Cabinet Systems. A modular, lockable, filing and storage system that can be positioned endless ways in your office increasing storage while enhancing form and function.

These high capacity units store up to 150% more and use 50% less floor space than traditional shelf or lateral systems. One customer doubled their storage capacity while freeing up 60% of their wall space! The cabinet interior allows you to add media drawers, supply drawers and file frames providing appropriate storage for multiple items in one unit rather than purchasing separate purpose cabinets. The carousels have individually rotating tiers, allowing easy access for multiple users from a standing or seated position - saving walking, waiting and search time. The cabinets and carousels also allow you to utilize currently unusable space such as corners. Or, why not position workstations around the carousel to share files or divide work areas with the modular storage units rather than using a wall that doesn't offer any storage? Request your free copy of the 32-page "Filing Innovations" catalog from Ancom and see how you can improve your storage capacity, efficiency and look of your office.

Ancom's Product Specialists are filing experts with a complete line of quality filing systems, supplies, discounted office supplies and they feature custom made folders and file cabinets to match your exact business needs. For more information contact Ancom Business Products at 800-845-9010; or visit their website at www.ancom-filing.com
