FOR IMMEDIATE RELEASE

Ancom Adds High-Density Weapons Storage

(Ancom Corporate Headquarters, Brunswick, OH) – Ancom now offers secure, adaptable, space-saving weapons storage solutions for police, sheriff and military applications. Shelves, barrel brackets and cradles are housed in a secure, heavy-duty steel enclosure that offers single, double or triple security access. Ancom's storage systems can store weapons either vertically or horizontally, and with attached scopes or accessories. Weaponry storage cabinets can be customized by adding tambour doors, pull out work shelves or drawers.

High-Density Weapons Storage can secure more weapons in less space and with a high degree of organization. Cabinets can be stationary or mounted onto moveable tracks that slide easily to condense storage. They can supplement existing storage and may be added onto as the department grows. The systems work together with audit controls for active duty use.

Ancom's Product Specialists are experts with a complete line of high-density filing system and storage solutions to match your exact business needs. For more information, contact Ancom Business Products at 800-845-9010; or visit the website at www.ancom-filing.com.
